MARGERY

Not Just New, But Better Too

1953 PRICE LIST *of*

Choice New GLADS

C. & G. MELK

7731 W. Appleton Ave.

Milwaukee 16, Wis.

DEAR GLAD FRIEND:

We take pleasure in sending you our 1953 catalog for your consideration.

We wish to thank all our customers for their business in the past, and feel sure that our 1953 customers will be pleased with the quality of our stock.

We have selected two of our own seedlings for introduction this year. Margery, a beautiful cerise rose, and Red Radiance, the cleanest bright red we have seen. Both have excellent growing habits. These varieties were selected from many thousands of seedlings, grown from hundreds of crosses with the finest varieties obtainable.

Also, you will find four of our previous introductions listed, namely Honey, Pink Classic and Skippy introduced in 1951, and Golden Crown, our 1950 introduction.

In List No. 1 we offer a selection of Recent Introductions at Retail (pre-paid) prices.

List No. 2 consists of varieties introduced prior to 1950. These quotations are at Wholesale F. O. B. prices.

In our descriptions the number following the name of the variety is the N. A. G. C. class number. This is followed by the name of the Originator or Introducer and the year of introduction. The last number is the approximate number of days to bloom from large bulbs. Very early planting or smaller sizes of bulbs will require additional time.

BUSINESS TERMS

Prices are for Cash with Order or 25% Deposit to hold an order, balance before shipment or C. O. D.

All quotations are subject to prior sale.

Orders are filled with clean healthy stock, true to name and up to size. However, if error should occur, we will endeavor to make satisfactory adjustment either by replacement of stock or refund of the purchase price.

Stock is state inspected in the field and in storage. Certificate No. 597.

Shipment can be made either by Parcel Post or Express. If your order consists of both prepaid and F. O. B. items we will ship the entire order Express Collect and add extra bulbs to offset the shipping charges on the prepaid items.

Substitution: We do not substitute variety without permission. If out of size ordered we will substitute with next size larger or smaller to the amount of money sent. If you do not want us to substitute, please advise.

M A R G E R Y

(Seedling No. 46 - 168)

Candy Splash X Burma

MARGERY is a brilliant cerise rose with a deeper rose throat. Its color has a sparkle and luster that must be seen to be appreciated. Here is a real commercial in just the color the florists are looking for.

Its field performance is tops, spikes are tall, straight and uniform and are easy to cut with good stem length.

Florets are 5" in diameter slightly ruffled with perfect placement and firm attachment. Margery has the ability to open when cut in bud. Florets open progressively and will hold 8 or more open with most of the remaining buds showing color.

Under ordinary field culture the spikes will average 21 buds with a 26" flowerhead and a field height of 58". Foliage is deep green and healthy. Margery produces high crowned and healthy bulbs. Bulblets are of average size and germinate easily. Propagation is good. Blooms in about 70 days.

Color and size classification 462.

Margery has an outstanding show record. Under average culture and with but a limited number of bulbs it won the American Home Achievement Award at the Wisconsin Glad Society Show at Two Rivers in 1951. Also best single, three spike and basket Seedling Award and Reserve Champ at this same show. In addition it won other single, three spike and Basket Seedling Awards at other Wisconsin shows the past three seasons.

Its winnings include four Trophies, 2 N.A.G.C. Medals plus many Rosettes and Blue Ribbons.

A glad with Margery's great exhibition and commercial value would be most profitable to buy the year of introduction.

Price each large or medium: \$5.00; per doz. \$50.00.

1 bulb and 12 selected bulblets \$15.00.

5 bulbs and 50 selected bulblets \$50.00.

5 — \$50.00 Units for \$200.00.

Note: Front cover is picture of Margery, daughter of George Melk, shown holding a spike of "Margery".

RED RADIANCE

(Red Charm x Spotlight)

RED RADIANCE is a clear bright red without blotch or markings. A very clean and glowing color. Florets are 5" across, well spaced and attached. Up to 8 well placed blooms open with 6 additional buds showing color on a spike of 20 or more buds. Florets are of smooth leathery texture and do not bruise nor crush easily.

Spikes are straight and strong 56" tall with a 25" flowerhead. Good propagator and bulblet germination is excellent. Blooms in approximately 85 days.

Red Radiance is a real commercial as it is one of those easy to cut varieties making tall spikes on plants of medium height. Stems are very hard and firm, and the color is the brightest red we have seen. Has healthy foliage and makes sound high crowned bulbs.

Price: Each large or medium \$2.50; per doz. \$25.00

Unit A 1 bulb and 12 selected bulblets \$7.50.

Unit B 6 large, 6 medium and 125 selected blbts. \$50.00.

5 — \$50.00 Units for \$200.00

From Cosmopolitan Glad Gardens (Introducer's Description)

PINK BOUQUET (Woodcock) I rate Pink Bouquet as one of the finest commercial prospects of recent years. It is a tall, vigorous, healthy grower with exceptionally long flowerheads. Field height easily up to 60 inches and it will produce spikes with up to 32 buds, opening 10 to 12 florets. Ordinary field culture will average 22 buds or more. Color is a light pink, of Pink Radiance color value, but with a clean, creamy throat. Florets open nicely, lie flat against the stem and look you squarely in the face. Placement is usually informal, nice for compact bunching, but occasional spikes come with very formal placement. The buds are a very pretty peach color. My tests for opening prove that 10 florets will open with only the bottom 4 showing color. Florets open rather slowly, both in the field and when cut in bud, a prime commercial requisite. Bulblet production is medium; germination is average. This may not prove a startling exhibition variety although it has won top awards for the originator at some of our toughest Wisconsin shows, inclncluding Seedling and Grand Champion at the 1948 Manitowoc Show; single and three spike excellent rating at Sheboygan in 1949, together with rosette and single spike division champion at same show.

Priced: Any size bulb, \$3.50; 1 bulb and 10 bulblets for \$7.00.

Bulblets: Qt. \$350.00 Pt. \$200.00

1951 Introductions

HONEY (340) Melk '51 (80) Beautiful clean light pink blending to a white throat. Very fine color. The ruffled 4" round florets are well placed and firmly attached on a willowy spike of 16 to 18 buds. 5 florets open 4 buds in color. Division Champion at Central International Show at Sioux City in 1952.

Height 48 in. Flowerhead 20 in.

This variety makes healthy plants and bulbs and it is a good propagator. Honey is an excellent glad to use in vases and table decorations where its high color value shows to full advantage. Not a large glad but certainly one of the most beautiful.

PINK CLASSIC (540) Melk '51 (82) This geranium pink has heavily ruffled and fluted florets 5½" diameter. The blooms are perfectly placed and firmly attached on very tall and strong spikes of 20 or more buds, 8 florets open and 8 more buds showing color. Flowerhead and stem are in good proportion. Spikes are easy to cut. Plants are strong, holding the spikes upright even during adverse weather. Rapid propagator and the bulblets germinate easily.

A fine commercial and exhibition glad.

SKIPPY (401) Melk '51 (75) Heavily ruffled white with small pink feather. 4½" blooms of heavy substance, 6 open 4 buds in color on a tall spike of 18 buds. Height 50". Flowerhead 24". Blooms in 75 days. Skippy should prove to be a good cut flower as it makes tall stretchy spikes that do not crook and have excellent placement and firm attachment. An all around, good variety that is well liked by all who see it.

GOLDEN CROWN (412) Melk '50 (80) Golden Crown is very consistent in the production of good commercial spikes. The color is a clean medium deep yellow without markings, opens 6 blooms 5" in diameter on a spike of 20 buds, has a flowerhead of 24" and a field height of 55". Placement is not always good but the florists like its color and opening qualities, which makes it a profitable variety to grow.

Golden Crown makes strong healthy plants and fine looking and healthy bulbs. Propagation and germination are excellent.
